Our customers are served by a team with extensive professional experience in the materials handling, industrial storage and internal logistics sectors.

Adjustable Pallet Racking

Easily adaptable to different sized load units.

Mobile Pallet Racking

Capacity is increased by eliminating individual access aisles.

Pallet Live Storage - FIFO

Pallet live storage on gravity rollers. FIFO system.

Shuttle Car - LIFO

Designed for batch storage. Maximum space efficiency.

Push Back Pallet Racking - LIFO

Accumulative storage system accessed from a single aisle.

Drive-In Pallet Racking - LIFO

Dense accumulative storage system with access from a single aisle.

Carton Live Storage

Shelving with roller tracks for storing small load units.

Static Shelving

Easily adjustable static storage for small load units.

Multi-Tier Shelving

Multi-tiered storage for increased picking throughput.

Mezzanine Floors

Raised storage platforms to provide additional floor storage space.

Cantilever Racking

System designed for the storage of long, slender loads.

Mesh Partitions

Quick and easy to assemble modular system, used to create secure zones.

Rack Clad Warehouses

Self contained storage structure used to reduce construction lead time and cost.

Garment Storage Systems

Designed for the storage of hanging or boxed garments.

ITE[®]. Technical Inspection of Storage Systems

Maintain the security of your facilities, making sure they comply with current legislation and regulations for all racking manufacturers' products.
